

INDUCTION, DEDUCTION AND ABDUCTION AS HEURISTIC PERSPECTIVES OF SYSTEMATIC THEOLOGIES

FEST HEIDELBERG – SCHMEILWEG 5, 69118 HEIDELBERG

Questions do we want to work on:

- *What are the perspectives of thinking and research in doing STs?*
- *Where do we find and how do we describe the objects of STs?*
- *How do STs relate to "the present" (repository for possible topics and questions, task for hermeneutical interpretation [research] object, "reality check" for tradition/scripture, etc.)?*
- *To what extent and how is past the subject of STs? (Dogmas/tradition as subject/task of actualization, reference to Scripture [as source, "translation" of Scripture and/or tradition])*
